Product Description

Bad Boy Maverick 48" Kawasaki® FS730 Zero-Turn Mower BMR48FS730

ANOTHER SMOOTH MOVE IN INNOVATION FIRSTS

We created a mower in a class by itself — a commercial-grade mower with Integrated Drive Systems featuring our patented EZ-Ride® System—at a breakthrough price! With independent front and rear suspension, the Maverick glides over uneven terrain — and through a price point other mower manufacturers thought impossible.

With a lower profile and wider stance, we've increased traction and even added our new DeckDial for precise cutting height. Packed with popular high-performance engines—It delivers all the power to bear on whatever you're mowing.

Features may include:

STRENGTH

- Classic 2" x 2 " heavy-gauge all-steel rail frame backbone.
- Curved front rail with our patented front and rear EZ-Ride suspension system and 1/2" front forks are an industry leading Bad Boy construction hallmark.
- Built and outfitted commercial-grade tough but perfect for the demanding landowner.
- Patented Dual Deck Support Isolators minimizes damage to your deck from side impacts.

COMFORT

- Smoother steering and tighter, more precise controls with our steering dampening system. Features our fully adjustable handles for exactly the right operator fit.
- Premium Comfort Seat is adjustable and cushioned with side, upper back support and cushioned arm rests.

CUT QUALITY

- Solid Steel deck features 7-gauge formed and welded steel with an additional 3/8" reinforced edge is heaviest in class. The improved baffling system gives greater lift to the grass, producing a cleaner cut and more even discharge.
- DeckDial with deck height pedal locks deck to exact cutting heights from 1.5" to 4.5" for a consistent, predictable cut. Deck pedal can be adjusted for right or left side operation.
