Product Description

25? 20amp Generator Cord 7684

Generac offers a variety of extension cords designed specifically for generator use. These cords are 10 or 30 feet long and can be used for up to 7500 watts. They are 30 amps and stay flexible even in subzero temperatures. They work with an L14-30 plug and connector, or a (4) 5-20 connector.
